

Appendix Updates

The Appendices from the DEIS are incorporated in their entirety into this FEIS. Updates to the appendices are included in the FEIS and are summarized below:

Appendix A – Traffic Analysis

Three additional traffic memorandums have been developed and included in the updates to Appendix A. These include:

- A memo summarizing the impacts of adding a safe harbor lane at 445 West
- A memo summarizing traffic impacts on 700 West and Lone Peak Parkway as a result of phasing of Alternative 4
- A memo summarizing the projected impacts on traffic volumes if UDOT adds additional capacity to Bangerter Highway

Appendix B – Public Involvement

The public and agency comments and responses have been included in the updates to Appendix B.

Appendix D – Agency Correspondence

Several additional correspondence items received since the DEIS was completed have been included. These include the signed DOE/FOE, a letter from the ACHP, and the proposed MOA for cultural resources.

Appendix I – Water Quality Analysis

Additional information on water quality impacts have been developed and included in the updates to Appendix I. These include:

- A memo summarizing the detention pond calculations has been added.
- A summary of the calculations for indirect impacts to water quality has been added.
